

## "Nuclear Challenge to world peace during 21<sup>st</sup> century.

Topic Sentence	The nuclear challenge is the major challenge to world peace during the 21 <sup>st</sup> century.
Reasoning Sentence	The reason is states have pulled out of the nuclear arm control treaties, new international and regional weapon races are picking up the pace and states are expanding their nuclear weapons.
Supporting points	States rely on nuclear deterrence to intimidate an enemy. The nuclear armed states continued to modernize their nuclear arsenals and several deployed nuclear-armed or nuclear-capable weapon systems.
Example	The Stockholm International Peace Research institute ( <b>SIPRI</b> ) launches its annual assessment of the state of armaments, disarmaments and international security. A key finding of <b>SIPRI Yearbook 2023</b> is that number of operational nuclear weapons started to rise as countries progressed. Russia has the world's biggest nuclear arsenal with a total of 5,977 warheads, 550 more than the US. China was in middle of an expansion with an estimated more than 300 new missile silos.
Conclusion	Therefore, The use of nuclear weapons is a serious threat to the peace and security of the international community.
