

Nuclear Challenge to world peace during the 21st Century

Topic sentence: Today the world faces a potential threat to its stability and peace by the nuclear proliferation and nuclear arms race among major powers

Explanatory sentence: Nuclear weapons are the most indiscriminately inhumane weapons ever invented which are capable of destroying life on this planet.

Supporting point: The world had seen the mass destruction by these nuclear weapons in the nuclear bombing of Hiroshima and Nagasaki by United States of America

Example: Today the similar aggression is feared in case of Russian federation waging war against Ukraine. It has rebashed fears about nuclear weapons 75 years since the first atomic bomb was used (Francesca Givovannini, The role of Nuclear weapons in the 21st century, Spring 2022).

Concluding sentence: It is therefore necessary for scientists and policy experts to build a structured analysis on implications of nuclear weapon use to avoid another catastrophe.
