

Batch#56

Name: Mishal Mehreen

Subheading: Nuclear challenge to the world peace during ~~the~~ 21st century.

Topic sentence: Humans are facing many challenges to keep world wide peace in 21st century like terrorism, environmental degradation, poverty etc., but most dangerous one is nuclear challenge.

Explanatory sentence: Nuclear is like a sharp sword which brings risks & challenges. The first risk is nuclear safety & the second is related to nuclear security.

Supporting point 1: It's quite difficult to use nuclear safely & controllably, as emission of radioactive waves could endangered the lives health of public and the ecological environment of the country & the neighbours.

Example 1: In Nebraska, USA copper nuclear station, on December 2019 one of the two safety component was unable to operate, as a result management had to evacuate the station because of danger of radioactive waves emission ([wikipedia/en.wikipedia.org](https://en.wikipedia.org) (19 June) 2023).

Supporting point 2: At present, the complexity of international situation, the prominent non-traditional security issues & the potential threat of terrorism all cannot be ignored

Conclusion:- From above discussion, it is clear that nuclear poses a great threat to humanity if not handled properly & put stop on nuclear arms race.
