

Nuclear challenge to world peace during the 21st Century.

Topic Sentence:-

The increase in the number of nuclear weapons is a challenge to world peace in 21st century, causing the threat of mass disaster.

Reason :

Every country is increasing its nuclear weapons day by day in order to make its defence more stronger and which however, is now a defence race between Nuclear countries.

Evidence:

Supportive

point:- USA and china are the rivals of each other and both are nuclear powers. They also keep increasing their nuclear weapons for the sake

of defence, which resultantly is a threat that if war started between them, the destruction will be on a huge level.

Example:

The US arsenal contains about 5400 nuclear weapons, and China have have 3500 active warheads.

(UCSUSA.org, Nuclear weapons, August 2023).

Conclusion:

Thus this massive increase in nuclear weapons is a threat to world peace.
