

(9/9/2023) (Paragraph writing)

Rising Terrorism in the Interim Government:

Besides the confrontation of paralyzed economic factors or indicators, interim government and security forces are ~~not~~ engulfed by rising terrorism.

Its key reason is Afghan government to grant asylum to banned terrorist groups. These groups have been crossing Pak-Afghan border and has been spreading terrorism in Pakistan since Taliban assumed

power. Recently, Counter Terrorism Department (CTD) killed dozen of terrorists from various terrorist

groups. KP (Khyber Pakhtunkhwa), northern Balochistan and Chitral are a hot bed of militancy.

CTD claimed that they have killed five Tehreek Taliban Pakistan (TTP) militants ^{in duetta}. Hence, apart

from being the crippled economic indicators, caretaker government is in trouble due to increasing terrorism.
