Exacerbating Terrorism in Chitral:

Terrorism is exacerbating in Chitral day-by-day. The key reason of terrorism in Chitral is that it is strategically sensitive area, bordering Afghanistan and with only the Wakhan Corridor separating it from Tajikistan. Chitral's people are now in trouble some; especially, those people who are in minority, such as Ismaili and Shia. Furthermore, these minorities are more vulnerable to terrorism and they are being targeted ^{by terrorist groups} nowadays. Therefore, Jirga of Chitral requested to Chief of Army Staff in order to resolve their issues regarding terrorism. Chitral is most vulnerable to terrorism (vulnerable Chitral, 2023). Hence, Chitral is being damaged by terrorism.
