1.2: Write a précis of the following passage and suggest a suitable title: (20)

Probably the only protection for contemporary man is to discover how to use his intelligence in the service of love and kindness. The training of human intelligence must include the simultaneous development of the empathic capacity. Only in this way can intelligence be made an instrument of social morality and responsibility - and thereby increase the chances of survival.

The need to produce human beings with trained morally sensitive intelligence is essentially a challenge to educators and educational institutions. Traditionally, the realm of social morality was left to religion and the churches as guardians or

custodians. But their failure to fulfil this responsibility and their yielding to the seductive lures of the men of wealth and pomp and power are documented by history of the last two thousand years and have now resulted in the irrelevant "God Is Dead" theological rhetoric. The more pragmatic men of power have had no time or inclination to deal with the fundamental problems of social morality. For them simplistic Machiavellianism must remain the guiding principle of their decisions - power is morality, morality is power. This over-simplification increases the chances of nuclear devastation. We must therefore hope that educators and educational institutions have the capacity, the commitment and the time to in-still moral sensitivity as an integral part of the complex pattern of functional human intelligence. Some way must be found in the training of human beings to give them the assurance to love, the security to be kind, and the integrity required for a functional empathy.

RÉCIS:

title is too long and looks like a sentence

~~Educators Carry~~ the Responsibility of  
Social Morality  
The security of present-day man  
depends on the employment of  
intelligence for the purpose of  
affection and generosity. Educational  
department is required to develop  
intelligence in human beings,  
which was historically the responsi-  
bility of churches. The clergy  
couldn't fulfil the responsibility,  
rather produced the allure of  
affluence in man. Now, the realistic  
man is also not interested to  
solve the issues of morality in  
society and (con)thinks power is  
everything. So, the only reliance is  
on educational sector to train  
and inculcate morality, love, compa-  
ssion and understanding in humans.
