4. Conclusion

Essay

Global South has always been home to numerous challenges. Global South facing the challenges means majority of the population of the world facing challenges. These challenges are of various types and they have confronted global South for a long time. However, in the recent times the challenges have escalated to an unbearable extent. This has led to the destruction of the global South, which can be evidenced from the expansion of BRICS, integration of African Union in G-20, concentration of wealth

Date 28.09.2023

in global South and from the expansion of Belt and Road initiative. The resurgence of global South is in the wake of escalating challenges, which mainly include deteriorating climate, ~~worsening~~ ^{worsening} poverty and food insecurity, governance crises, ~~increases~~ ^{increases} widening gender gaps and the mounting geo-political tensions between states like India and China. These escalating challenges have proved to be a catalyst for the resurgence of the global South. The essay will establish the fact that the resurgence of the global South has happened in the wake of escalating challenges.
