Despite its urgency, climate crisis remains the most neglected cause.

Thesis Statement :-

Climate change is risk multiplier of 21st century as it is happening even more quickly all over the world. Due to the rising concern climate change remains the neglected cause due to the ongoing war in Ukraine pushing the climate policy down for the political agenda.

It needs International action to provide system to ensure a same dignified future for everyone.

Interpretation of topic

- is too narrow
- upload clear images
- discuss - urgency of crisis
- causes of negligence
- way forward
