

Sub-heading: Nuclear Challenge to World Peace in 21st Century

Topic Sentence: World's peace is being challenged due to the proliferation of nuclear weapons in 21st century.

Reasoning Sentence: States are expanding their nuclear arms for their security purpose.

Supporting Sentence: But increased number of arms also increased the chances of smuggling of weapons and these weapons ultimately end up in the hands of militants which pose a serious threat in conflict zones and neighbouring countries.

Evidence: According to testimony Pentagon officials gave to the US Congress, gear worth of \$7bn was left in Afghanistan when US forces shipped out in 2021. Much of this was snapped by Taliban and through their "good offices" ended up in the hands of TTP and now being accessed by IS-K.

Concluding Sentence: So, escalation of weapons without proper management can cause threats and damage world's peace.
