precise A Composition 2023

Currently there are three main schools of thought on the topic of freedom in education. Some of them say that children should be completely free, others say that children should be under supervision, yet another group <sup>says</sup> say that they should be free but they must always be good <sup>in spite</sup> of the given freedom. Those who believe in the latter are larger in number but children if left free can not be good enough. <sup>mis belief</sup> They are of the <sup>cannot ensure moral</sup> perfection thought that the sole purpose of education is to provide an environment suitable for spontaneous development but this school of thought is not considering the importance of knowledge, living in communities <sup>requires</sup> require cooperation and this cooperation can not come from spontaneous impulse alone. Good qualities of those who got success can not be generated if they are left unchecked. Education is something more positive than just an opportunity for growth. <sup>Too long. There should be one third of the passage. Do not include irrelevant details in precis. Mistakes identified.</sup> Beside providing opportunity for growth it also must also provide mental and moral education which can not generated by itself.
