Topic: Negative Impact of Social media on youth

Neatness

Topic : Among numerous negative impacts of social media on youth, one is depression.

Explanatory: Social media users spend their time in isolation, ignore physical activities, build relationships that later on prove to be depressing.

Supporting: As youth is more connected with people at social media, it is constantly in a process of meeting their expectations and making self comparisons. So, whenever youth finds itself alien to the world of social media, it causes inferiority complex & worthlessness.
