Youth Bulge in Pakistan: an asset or a liability.

Attempt Again

OUTLINE

(1) INTRODUCTION:

Thesis statement:

Youth bulge is becoming an asset is crucially dependent on the youth being literate, trained and employed. If they are not, which is the case of Pakistan, it leads to a liability rather than an asset.

Merge as there is only 1 crunched data

- (2)
- (3)

Understanding the phenomenon of youth bulge. Youth bulge and the current social, political and economic situation of Pakistan.

(4) Increasing illiterate and non-skilled youth is a liability for Pakistan (Thesis)

(a) Non-employed youth affects national economy → clarify how?

(b) High population means high demands — causing inflation

(c) Increased crime rates; effects on social image of Pakistan → just discuss this

(d) Increasing recruits for militancy in Pakistan.

(e) Wrong mobilization of the youth by the political leadership; creating chaos and unrest

(5) Youth Bulge in Pakistan is an asset for socioeconomic growth and innovation (Antithesis)

(a) Foreign remittances by youth; a huge contribution to Pakistan's economy.

(b) Increased contributions: of youth in services sector → clarify ↓ how

(c) Compaigning involvement by youth against global warming;

✓ Aforestration through Billion Tree Tsunami Project →

(d) Services during Covid 19; Tiger Force → do not mention
(e) Pakistani youth and increased political participation.

(6) Youth bulge in Pakistan is more a liability than an asset. (synthesis)

(a) Economic growth is difficult with a huge percent of unemployed and unskilled youth.

(b) High population requires ~~him~~ more contributions of the youth to meet the demands → ambiguous

(c) Co-relation between illiteracy and ignorance; illiterate mind can easily be manipulated by extremist ideologies. SP An

✓ (d) Socio-economic inequalities leads to violence and unrest.

(e) Post truth Politics and the youth of Pakistan.

(7) Way Forward → not required by topic
case study of Germany.
