

Batch#56

Name: Mishal Mehreen

**Subheading:** Nuclear challenge to the world peace during the 21<sup>st</sup> century.

**Topic sentence:** Humans are facing many challenges to keep world wide peace in 21<sup>st</sup> century like terrorism, environmental degradation, poverty etc., but most dangerous one is nuclear challenge.

**Explanatory sentence:** Nuclear is like a sharp sword which brings risks & challenges. The first risk is nuclear safety & the second is related to nuclear security.

**Supporting point 1:** ~~It is~~ <sup>It is quite</sup> difficult to use nuclear safely & controllably, as emission of radioactive waves could endangered the lives health of public and the ecological environment of the country & the neighbours.

**Example 1:** In Nebraska, USA copper nuclear station, on December 2019 one of the two safety component was unable to operate, as a result management had to evacuate the station because of danger of radioactive waves emission ([wikipedia/en.wikipedia.org](https://www.wikipedia/en.wikipedia.org) (19 June) 2023).

**Supporting point 2:** At present, the complexity of international situation, the prominent non-traditional security issues & the potential threat of terrorism cannot be ignored.

**Conclusion:-** From above discussion, it is clear that nuclear poses a great threat to humanity if not handled properly & put stop on nuclear arms race.
