(Sub-heading: Nuclear challenge to world peace during 21<sup>st</sup> century)

Topic Sentence	Cyber threat to nuclear weapons is a major challenge to world peace during the 21 <sup>st</sup> century. ✓
Explanatory or Reasoning sentence	Nuclear weapons are operated by computers and they can be compromised <del>with some effort</del> by means of Hacking.
Supporting Point (1)	A hacker can launch a nuclear attack on any place in the world in matter of minutes. Measures to guard against such threats are non-existent. If a system is cracked by anyone it could cause an all out nuclear war.
Example (1)	According to Arms Control Association, there are over 12500 nuclear warheads in the world as of June 2023. Out of these some take a little over a minute to fire and are always in <del>at</del> alert state.
SP 2 (optional)	<p style="color: red; text-align: center;">There are too many ideas in one supporting point, moreover, the evidence is not related to supporting point and lacks reference</p>
Ex 2 (to be written if SP2 is given)	
Concluding Sentence	Hence if nuclear weapons are hacked it will be a great challenge to world peace.
