

Social media platforms are generally considered as the safe zones for people of all ages to socialize, ^{yet} in recent times they have it has been the main reason behind abduction cases missing persons And ~~this~~

this is also true, for the youth of Pakistan, upto some extent ^{sp}

There is a trend uprising in some parts of the southern province Sindh in which the kidnappers exploit the presence of youth on different social media platforms. According to a short video documentary, posted on their youtube page, by BBC News Urdu 9>1, a young person rescued by the Ghotki police said, "he was approached by an account on the social media pretending to be a girl, but was ~~trapped~~ honey trapped & later kidnapped for ransom money." In conclusion this incident creates the need of a program for online safety for our youth.

avoid using personal pronouns
