

Topic: Commercialization of Education in Pakistan as Challenge to Intellectual Development.

Outline

1. Introduction

Thesis Statement: Education is the key determinant of the intellectual development of the students, but nowadays, the education system of Pakistan is highly commercialized, which hinders the cognitive development of the students. However, this challenge can be overcome by taking effective measures at public as well as at private level.

2. Correlation between commercialization of education and intellectual development.

3. How education is commercialized in Pakistan.

- a. Skyrocketing fee of the private educational institutions
- b. Proliferation of tuition centers and coaching academies.
- c. Education related merchandise. → clarify
- d. Enrollment of students at low merit to increase the number of students.
- e. Monopoly of Entrance exam preparation centers.

understanding of topic is good

Attempt Again

good

personal?

f) Utilizing academic achievements of alumni for ^{the} promotion of the educational institutions. → relevance to commercialization?

how is it negative?
