# Optimism in Life

إن مع العسر يسرا (الشيخ القرآن)

Verily, every hardship comes with ease. (ALQuran, chapter Ashsharh)

Optimism is the fuel that propels human to move forward, it is guiding principle in life's darkest tunnel and it is the antidote for despair. Optimism is unwavering (belief to the) belief that consider trials and tribulations as opportunity for growth and development. It is evident from history that optimism brought great revolution in history.

**Nelson Mandela was imprisoned for 27 years.** He never lost hope and optimism. Due to unwavering strength of optimism, he stood against the apartheid regime and proved to be a beacon of hope for people of Nation. Moreover, optimism is not

merely a wishful thinking it is about taking necessary steps with an attitude to challenge the setback. Similar to this Anton Chekov explained that "Don't tell me the moon is shining show me the glint of light on broken glass." He beautifully explained that optimism lies in taking required steps to show resilience against any negative circumstances. Despite Korean War and all set backs faced by North Korea, it was able to conquer the economic turmoils, and all challenges at diplomatic fronts. However, it is now among the leading nations of world. Hence, Optimism in life act as fuel ~~to~~ to move forward, resilience against setbacks and glint of hope for progress not only for an individual but also for nations. It is often said that See the glass half full, not half empty.

Write an Application to general  
Manager, Sui Northern<sup>(ii)</sup> Gas Pipeline  
limited (SNGP) about the installation  
of gas in your colony. Subject

The General Manager, (0.11)  
Sui Northern Gas pipeline limited, (0.12)  
Islamabad. (0.13)

← Subject: Installation of Gas in  
XYZ Colony

Sir,

With due respect it stated  
that I am resident of XYZ colony  
and want to make request about  
installation of gas pipeline in our colony.  
Due to absence of gas facility  
people are facing myriad of problems.  
As the connection of gas supply  
net will help to improve the  
quality of life by reducing the  
cost of being spend on other alternatives.  
Moreover, the installation of gas

pipeline will help to reduce the carbon foot prints caused by combustion of natural resources.

We request you kindly install and ensure the supply of gas in our colony by installation of gas pipes.

We are confident that you will consider our request and will take necessary steps to contribute in welfare of our community.

Yours Truly,  
XYZ
