Status of Women in Pakistan

"No nation can rise to the height of glory unless your women are side by side with you."

This is the famous saying of our founder Quaid-e-Azam Muhammad Ali Jinnah. He observed the situation of Pakistan back in 1947. There are so many problems ~~in~~ revolving around in the Pakistan.

One of them is Women inequality. Sadly, we are living in the society that is full of social evils. Women are facing many issues in Pakistan. For example, lack of education. They are not allowed to go to the schools. But, if they want to go they will face another problems such as security issues. Honour killing, is another big issue in Pakistan where brothers are killing their sisters in the ~~name~~ honour of their family and their respected brothers are harassing other girls of their society. Women are not allowed to do jobs because of men dominance, and security issues. We are living in the society where men are dominant. This is against their ego that their wives

and sisters are getting paid.

So Conclusion, women of Pakistan, are facing the ingrained hate of their society towards them. It is a heart-wrenching situation that our women's are not safe here while living in a Islamic Republic of Pakistan. Our government should take an urgent action on the empowerment of our females, especially about their education. Because

"You educate a man; you educate a man. You educate a woman; you educate a generation" (Brigham Young)
