- (i) Construction of dams
- (ii) Reduce carbon emission
- (iii) Planting trees

(h) Stopping brain drain

- (i) Providing conducive working environment
- (ii) Creation of jobs
- (iii) Addressing social issues like poverty

(3) Conclusion

Essay

The founder of Pakistan said, "If we want to make this great state of Pakistan happy and prosperous, we should wholly and solely concentrate on the well-being of the people, and especially of the masses and the poor." So, this depicts

that the well-being of people ultimately brings prosperity. However, there are many hurdles in Pakistan's journey to progress such as lack of quality education, accountability, justice gender equality and old system of agriculture etc. It is high time to think about the issues. There is no doubt that Pakistan's progress is hindered by certain causes but by adopting practical

pathways such as promoting quality education, accountability, justice, and gender equality, Pakistan can move towards progress. These steps will resolve the issues that are the major hurdle in Pakistan's progress and will be fruitful for the well-being of the people.
