# Css preparation

~~Today~~ It is Wednesday, April 24, 2024, today am Sitting in my study chair, ~~with~~ surrounded by piles of books ~~surrounded by one~~. ~~Recently I am think~~ Recently, I have thought many things to do for my CSS 2025 preparation. I thought to buy reference books, to get pages for making notes, and to make an attractive time table to follow during the whole year. However, I have ~~succeed to acheive~~ succeeded in achieving most of them. Moreover, many CSS aspirants ~~asiprants~~ face ~~diffulty to remain~~ difficulty in remaining persistent during ~~road~~ their journey, but I am lucky to have the quality of ~~Perservence~~ perseverance. When I first started my preparation in 2023, I was very ~~energetic~~ thrilled to go an extra mile. Nonetheless, I gathered courage, bravery to sustain my this calibre. Furthermore, my roomate, Saiha Banu, is also an ambitious person to reach towards her goal that is the pivotal part ~~of her~~ studying with her. ~~circle~~ There is a famous saying, "The person better company decides his bright future." I second that, and I try my best to remain in a positive ~~an~~ circle of the students. In addition ~~of it~~ to it, there are some questions asked by CSS asspirants for ~~CSS~~ exam preparation whic

includes, "what would be the reference books for optional subjects?" "How many hours should be given to the reading in a day?" Likewise, many other questions. In this regard, I would like to answer them.

Hey, respected students don't worry with the passage of time, or through self-stuggles, you will get the right answer of them. Coupled with it, those students, who are studying from academies in Islamabad, Lahore, Pakistan they are well-aware of the preparation tenchiques. Therefore, interacting with them is fruitful for the academy aspirants. To conclude it, CSS preparation is tough and difficult, but it can be easy when follow the smart rules and method of studying throughtout the learning period.
