

to get hold of energy resources of Iraq.  
International Atomic Agency quoted this.

## \* Balance of power

If we want to compete India  
we have to collect power against  
India and produce threat and  
fear for India that's why we  
have nuclear weapon. If you are  
unable to do this then your foreign  
policy is not balanced.

## \* Economic tool (debt financing)

Core countries give loan to  
periphery countries or semi periphery  
will give to periphery countries.  
So that they can't make foreign policy  
against them.

e.g; China is investing in Pakistan so Pakistan  
can't make foreign policy against China.
