Title:- Cherokee: Historical Place

Author had a hard time in choosing a trip to Cherokee. It was an exotic and peaceful place. Cherokee's town, Qualla Boundary, was encircled between mountains. Qualla boundary displays its historical perspective. Author's family found a man, fluent in English although having a language barrier there. He guided them and offers lunch while chatting. He told them of becoming a busy tourist guide during this season instead of cutting woods. ~~People~~ Residents were not dependant only on trading rather they searched multiple ways of earning. One of the good paying means was "Bingo Weekend", which attracts large number of people. Cherokee's museum depicts cosmology. On returning home, Author missed the exotic Cherokee and wanted to visit places like Cherokee in future.
