Diminish quality of services

(b) effect on economy

- 1- effect in economic growth
- 2- loss in revenue

(iv) Conclusion

## Introduction:

One of my closest friends recently migrated to Canada for better job opportunity. She was an eminent qualified lecturer in Balochistan University and also a gold medalist. Her students lost a diamond and an intelligent mind. The practice of migration is as ancient as humanity. In 1960 many British scientists and intellectuals migrated to the US for better working climate. The word brain drain is defined as "The departure of educated and professional people from one country, economic sector, or field for another usually for better pay or living conditions" Merriam Webster. The causes of brain drains in a economy or country are Economic factors, Educational factors, Political factors, Security factors and the consequences are Scarcity of skilled person, loss in revenue and less economic growth.
