

# Bangladesh Crisis

Bangladesh has become a hot topic for a discussion nowadays. As it was once part of Pakistan, it is necessary that one should broach ~~broach~~ it in <sup>the</sup> detail. The renowned ~~prime minister~~ and longest serving prime minister of ~~Bangl~~ Bangladesh, Sheikh Hasina, the daughter of founding father Sheikh Mujeeb ur Rahman, was ousted and forced to resign. The crisis jacked up few months ago in the matter of the Quota system. The quota system was given to those who were freedom fighters in the Bangladesh creation. There is 30% quota was distributed among them. If one amalgamates other quota system, it will be 56% for reserved communities and freedom fighters. The youth of the country jammed up their concern in front of the court. As a result, in 2018, the quota system was abrogated. In 2022, the quota system was restored under the leadership of Sheikh Hasina. The restoration of quota was a triggering point that instigated students to protest against quota system. Students got angry when prime minister labelled them as terrorists. This was a triggering point where students forced Hasina to abdicate. In this whole process, more than 400 plus students were killed, and many of them were injured. At the end of the day, students achieved their desired objectives.
