Introduction:

Pakistan has been facing a major economic crisis from the past few years and there is need for strategic pathways to reverse the current situation and achieve prosperity. The road to Pakistan's prosperity is paved with potential and pitfall alike. Through targeted economic pathways, overcoming significant barriers, and implementing effective mitigation strategies, Pakistan can achieve prosperity.

Conclusion:

Pakistan possess immense potential given its geo-strategic location, strong relations with China, and immense size of workforce. However, prosperity will remain a distant dream until long-term visionary policies along with stable internal environment and effective governance are not adopted. By learning from case studies of India, Ireland, Singapore while maintaining a balanced
