

# Precis

During my last vacation, I faced difficulty to choose for traveling. One of my friend told me about chorkee, I agreed and start my preparation. We took flight, and visited a village Qualla Boundary. It's surrounded by the mountains and village crafts and lifestyles describe the history of Chorkee. Despite the language problem we reached souvenir shop, where we see different things and meet a ~~with~~ <sup>with</sup> person.

His english was fluent and he tell us that he had to work unill the sunset. However, it's better than wood cutter as well as he describe the chorkee that it's not only depend upon the trade solely. He also tell about the Bingo weekends, where they get benefits from different games. Our last destination was museum and I want my next destination would be <sup>exactly</sup> like this place.

Title:

"Beautification of Qualla village."
