Q2:

The Threat To Democratic Integrity

Around four billion people have the opportunity to cast their votes this year, but ~~misinformation~~ ^{causes loss of} the trust of citizens about democracy. However, in past some ^a Anti-democratic agents attacked the election website in Spain and spread false information about terrorist attacks on polling stations. AI-generated deepfakes are also threat to democracy. But these issues need serious practices by authorities: recognition of the problem; false information must be warranted and strict law and order against the culprits.)
