4. **Conclusion** Add some suggestions about the role of media

The author of "Israeli lobby and US Foreign Policy" John meherstemer ascribes the media as most tremendous weapon of Palestinians. Further, John meherstemer agrees with the saying "Whoever controls media, controls the minds". The author further describes in his book that media is one of the most powerful tools in the conflict of Palestine-Israel. Undoubtedly, same is the reality in the going on conflict between Palestinians and Israel. Media has been addressing the casualties, exposing the propaganda of Israeli forces and projecting famine in Gaza. Moreover, media has enabled the Palestinians to project the genocide of Palestinians in West Bank, expose the barbarism of Israel and awake the mass protests of students. Also, it has been used by Israel to wrongly describe the recent events. Media has not only given access to Palestinians to raise voices against oppression but also enabled to address illegal settlement of the Jews in Israel. Furthermore, media is being used by Hamas as a tool of diplomacy to address its demands. This is the only source of communication among the locals of Gaza. In nutshell, media has been playing tremendous roles in the conflict of Palestinians and Israelis.
