THE ESSAY

"Brain drain causes collapse of country's infrastructure, and it can become stagnant with no improve." This concept of Brain Drain is a matter of serious concern for any nation because it takes off individuals from their homeland to another foreign land. This problem is a serious and ongoing issue for many countries. Unfortunately, Pakistan is one of those countries facing Brain Drain due to unemployment, deteriorating education system, political instability and fear of doing business. These ills have drastic consequences such as loss of valuable human capital, ~~eco~~ economic impacts, psychological impacts and poor health and educational services. Unless the issues of brain drain are addressed properly, Pakistan can neither become prosperous nor respectable.
