Title:; Methods in the children Education.

What are the three schools of thought?

There are different schools of thoughts, based on freedom in children education. Some of them are in favour of free will to be given to the children, that there should be ^{no} command ~~like animals~~ on children ~~about to~~ ^{regarding attaining} ~~attain~~ knowledge. Many ~~of them~~ are against them that without command the children do not attain education on their own will because the children do not have the capability to differentiate in right and wrong. In this modern world, the children should be ^{equipped} with modern technology and to give them the education of science and technology.
