Gender equality is a myth

Outline

(1) Introduction

(1.1) Hook

(1.2) Historical Background of gender inequality.

(1.3) Thesis Statement.

Gender equality is a myth. due to patriarchal society. women consider a subordinate and third gender are alien. They do not have equal access to resources.

Women are considered subordinates

(2) Debunk the term gender in equality

(2.1) How Gender ^{are} facing inequality currently?

Main body

(3) Limited access toward education shows gender inequality.

(3.1) Expensive education.

(3.2) Provision of transport.

(3.3) Security concern

(3.4) (Shortage) insufficient female staff

(3.5) Harassment Cases.

(3.6) Child marriage

(3.7) Lack of proper Educational institutes in rural areas.

(3.8) Lack of facilities.

Case in point \rightarrow 98% girls face harassment during education life (Aurat foundation survey).

(4) Limited access toward health care facilities shows inequality.

(4.1) Early marriage.

(4.2) Forced pregnancy.

(4.3) Forced abortion

(4.4) unaware health issue

(4.5) Psychiatric issue

(4.6) Midwives

Sub-arguments should illustrate the main header

(47) Lack of facilities in hospital

(48) Poverty

Case in point: Every year about 4000 women die due to lack of breast cancer awareness. (Shrikant Khera in report).

(5) Economic disparity

(5.1) unemployment

(52) Low wages

(53) Climate effect

(54) Patriarchal Society

(55) Low Budget for women empowerment

(56) Harassment/abuse by boss

(5.7) Family restriction

Case in point: Women in rural areas 61% work in farms without any cost

(6) Inequality in sports

(6.1) Family and societal restriction

(6.2) Low media coverage

(6.3)

(6.4) Low Luxuries as compared to men

(6.5) Bullying in ground.

(6.6) Abuse by Coaches.

Case in point - women faces Verbal languages in ground during session (aust, janelatin)

Phrase it properly

Media discrimination

(1) Cause reason of violation on women.

(2) women use a object for sex.

(3) Low Decision making.

(4) Societal issues.

(5) Politics

(1.1) Low Budgets

(1.2) financial issue.

(1.3) family problems.

(1.4) Lack of sport team party

(1.5) Issues faces during compare

Case in point -

Female candidates faced

Verbal language from opposite
side candidate during parliament
session may 2024 (Down News)

(B) Violence

(181) Domestic violence

(182) Rape on the ^{order} of the

(183) Kaga - Kari

(184) Watta - Satta

(185) Quran message

(186) Stove Burn

(187) Infanticides

(188) Prostitution

Way Forward

Make proper phrases

(1) Provision of Education.

(2) Health Facilities.

(3) Employment

(4) & make strict law to stop
Violence.

(5) Awareness toward legal rights

Conclusion

women and save the nation
Every era (allama iqbal)

It was assumed that Germany won the war. Because of its mighty army and advanced weapon. Even this Zeal and Zeat Germany lost the war. The evidence falls that when the Germany restricted his women to go outside. At the same time Queen Elizabeth II work on automobile company to utilize his human potential. The result was Cless Great British women the war II. It shows that now nation can make progresses without women. Even Allah gives

all humans equal right ⁵ but
this patriarchal society makes
difference and makes our
greeny world blood. Gender
inequality persist from very
first day. Even in the advent
of islam women are an object
of sexual pleasure. The nude
dance of women in the courtyard
of Kabir at every year's Holi
festival they buried women alive.
Even in Europe women considered
a host of all evil. They do not
have equal rights of Education, Health,
employment, political. They consider
a subordinate while men are
superior on them.

The term Gender
equality all the gender
that are present in world
enjoy equal rights, in every
field of life. They lead their
life on their own will. There
is no gender equality present

The present they faces inequality in education, health, employment spiritual, societal. women fight for their right from first. the history shows the evidence while Janshi Ki xanis and Razia sultans fought for their rights in battle field. similarly third-gender. they enjoy respectful and luxuries life in mughal era. At that time they were appoint in haram and work for royal women. while they do not have even recognition. They considers a homosexual and society not like them. They do not have facilities of education, health, employment. Even most of them are homeless because their families are not accept them. therefore they are involved in bad activities. These discrimination shows inequality in society.

First come with discrimination
in education. The patriarchal
mindset of society and poverty
not allow to parents to send
their daughters to school. Due
to expensive education they
prefer son. Because they thought
he will be a bread winner
in future. According to united
state report Pakistan is unable to
provide free primary education.
Moreover, provision of transport
is another obstacle on the way
of female education. There is
about 95% harassment cases
that were record from bus stop
(Aurat foundation) parent not allow
their girls to go school. Next
come with security concern the
girls are not safe even
educational institutes. They are
blackmail from ^{MSU} teachers. They use
them sexually and blackmailed
them if they are not agree they
are not protected as even boy.

grade. Therefore, most of the parents are not agree to send their daughters in educational institutes. in addition to shortage of female staff in school. according to ministry of federal education and training institutes. There is shortage of female teachers in urban areas. its about 41%. while men are 59%. This number further reduce in rural areas where only 35% female teachers present in addition to harassment case makes an hurdle on girls education. which makes them difficult to go for education. The incident of islamia university where teachers and other staff members are involved in blackmailing and nude videos of girls students makes condition more worst. one of the other incident in Baluchistan university where in university hostel cameras are found in

girls rooms. which stop them parents to send them for getting education. That's makes condition more worst for women. Next come Child marriage which is most serious problem. The parents are not send to school because they considered them another property. They will go to their husband's house. So not to waste money on their education. according to united nation studies 35% of girls marriage before the age of 18 and roughly estimated that one girls in world is married every 2 second. one of another report, the schools worried about the worst situation that occurs after Covid 19. which put atleast 3 million girls on the corner of children marriage. Moreover lack of educational institutes in rural area. The institutes that are present lack of facilities of pure water, staff, building infrastructure. These schools are present =

Secondly with health facilities women are unaware of health issue. They have no facilities of health provision. In rural areas hospitals are present at greater distance. which make them to go for check-up. Moreover Early marriages impose dangerous effects on female. For instance about 10,000 girls in which 178 die every year during delivery. according to united nation report.

The early marriages **Obstetric** issue in female. Therefore, their child or even mother die during delivery. Sometime their makes condition more worst. in addition to joyful pregnancy, on the internal wishes of baby boys, cause several pregnancy, which imposes dangerous effects on women life according of gender ^{report} every year 2.3 million ^{girls are} pregnant ~~are~~ in which 9000 pregnancy

end at abortion. in addition to
forceful abortion. Inadequate processes
are used which effects the
women health. For instance World
Aids report 1602000 aids patients
are present. in which 37% are
women. it is due inadequate
instrument use during abortion
in addition to women are
not aware to health complication
or on the other side they do
not have proper facilities of
health care. Even the women at the
age 15-48 are not gets medical
care with their own well. For instance
World anemia report shows 85%
women in south asia suffers
with anemic deficiency. on the
other hand who report show
in which 50% women belongs
to pakistan which makes difficulty
in pregnancy or during delivery. even
come with psychiatric issue adolescent
marriages cause psychiatric problem.
these are most untreated. because

unawareness of these issues. World Gender index report shows that 17% women whose marriage at early age they are suffer with domestic violence. which lead psychiatric issue. which remain untreated and lead serious consequences with them. in rural area there is lack of health care center. Therefore, midwives are prefer during delivery. ~~which~~ is not aware of medical terminology. so the most of issue remain untreated. which some cause death of girls. For instance the doctor of Sheikh Zaid hospital women come with pregnancy. in which half of them suffer Hepatitis and half of them unwise. in addition to hospitals are not have proper facilities, beds, para staff medicine which makes situation worst. For instance. The birth of child on roads or tikshas show the worst condition.

Thirdly Economic deprivation also makes women unequal. Society do not allow women to

work outside. it is considered women duties are to handle home and child. But it is patriarchal mindset. Hazrat Khadija wife of Hazrat Muhammad (Peace be upon) was the biggest merchant at that time, and run their business independently. She also helps Hazrat Muhammad financially for preaching of Islam. But now a day women considered subordinate and inferior and not allow to work outside. Now come with employment: women are unemployed due to lack of vocational education. According of world employment report of united nation in overall world women work force near to 61% while men are 90. This show the huge gap between them. It makes female financially dependent from their house. Moreover, low wages the women work at low wage. most of the women work in a

forms without any cost. it is considered
its the duty of female to
perform all his responsibility. in
addition to climate change
effects on human health. For
instance - some women living
in a sexist area - where
always conflict between two
parties present. They are affected
women. Because the women
faces abuse of verbal language from
opposite side party. They are
not allow to go outside
independ. This is effect her
life. Newcome to patriarchal
mind, people considered female
doing house chores. They are
inferior. They do not allow to
do. For instance just 3. Budget
is given for women empowers
it is divided into 6 part
to give women empowers. which
is less to. No more over
low wages and dependency of
women makes it indirectly

According to Gender Gap index Pakistan ranks Pakistan rank 148 out of 149. just above Afghanistan which shows the dark picture of women empowerment in Pakistan. Moreover, women faces harassment. For instance the women are harassed and bear verbal language from their boss. in a patriarchal mind society. women are not allow for jobs. it is a social taboos. that the reason about 3.5 million women living a poverty. These, they do not have any choice. while united nation report shows that in year 2020 about 2.35 women are employment while 1.35 The women living a poverty. Because they are financially depend on husband, father and brother which are worst reason of women inequality. Jinnah in his article shows that women

due financial dependency have no right to work or decision-making.

Thirdly come with inequality in a sports we living in patriarchal society. where the sports girls are considered as a alien. Because of these dresses it is taboo of society on the basis of Quran. But Quran and islam allow women to lives life with its own way in addition to women are not participate in game to society. They are considered as a object of sexuality on media. The girls commits on their body physique. Therefore family do not allow them. Moreover, low wages also a biggest issue. For instance the player of olympic gives 35000\$ while female champion only 2 dollar which are the

class difference of inequality. Moreover, women face inequality in ground they do not live like male athlete. Like man have. For instance the 3 time soccer Brianna tells that she won 3 soccer and 2 olympics. ~~They~~ She ^{was} wearing man's shirt while playing because the company made uni-free finally ~~she~~ such uniform for more. Next come with bullying in a ground. The people instead of support women make bullying or vulgar language. The hear taunted on their body shape. For instance in 2012 Badminton team of women asked. the federation of Badminton forced them to wear skirt and shirt. So they look more feminine. That the reason parents are not ^{participate} of see For women in games

in similar ways coach also use verbal language for women. They taunt their physical appearance while training.

Fourthly, representation of women in media, in a media the late night shows or debates shows are restrict the parents to send their daughters on media. Because patriarchal society consider a woman with bad character that she come in home late and people see them with bad eye. More with media cause violation on women. Because the today society mostly 80% people follow the characters of movie or film actors on daily life. Violation on women in these show urge men to do same in daily life. which cause women

inequality. Moreover in a movies or drama women show inferior or as an object of sexuality. The director asked for nude dresses. It give high rating. While men's characters always as hero. Even in a stories of babies ^{shows that} main characters always considered a male - while women inferior. For instance the nude ~~picture~~ of Ayesha Omar is posted on media. She is denied to accept this - in addition to that women are not allow in decision making. The all main show of debate talk - shows given to ~~women~~ while on the other side morning shows gives to women. For instance the 35% population of global women work in media which 75% are men work in a similar way.

the society restriction for women work on Shobair

Fifty, Women form the half of the world population. But they do not have equal right as man. They live a inferior life. The women's faces inequality in every field of life. in a politics she is not allow to participate. Therefore she faces difficulty during campaign due to low Budget. Parties not allow her a proper Budget payment. which makes ^{them} their weak representation moreover they are financial depend on man. The man are not allow her to participate in politics because of vulgarity in politics. For instance the recent case of usma bukhari shows the inferiority of women. Even party are not support their

female candidate at the time of ticket distribution. The main position given to man in addition to campaign issue... firstly women faces financial and secondly patriarchal mindset or support which make it difficult for them to start campaign during election. During campaign or jobs they faces vulgar talk and party also use a object for instance. The political stance of doctor afifa sadiqvi and shows the accusation of murder on them. on the other, the death of Kashmir women from Indian forces show inflexibility

Moreover we are living in a 21st century where all the world developed. But women faces violence like first day. some with domestic violence faces domestic violence from first to now a day -

Punjab Survey Report on
beaten housewives shows that
90% women are psychological
abuse while 70% physically beaten
and 50% ^{cases} reports. Unfortunately
half of the patients were die
~~before~~ the report file. Moreover
Rape case shows inferiority
according to UNICEF report
every one 1 minute girl are
raped globally - Kaka Kori
is the custom of Baluchistan
which means honour killing
Till today most of the girls
are murdered in the name
of honour-killing. For instance
Shafika Ahmed was British
Pakistan. She was accused
to death because she refused
to marry with her Cousin in
similar way. Watta-Satta
tradition. ~~what~~ is the famous
in Punjab. But it's put
difficulties on both couple life
most of the marriage end with

divorce. The Quran marriage is popular in Sindh Tribal areas. where parents want to save their property. They do not marry her daughter in any families. To save her property past. and marry her with Quran. Then she spend his whole life with Quran. in addition to stove burn is most common to kill the women. in-laws force their daughter-in-laws to demand more dowry from their parent if she refused. They killed them. Every year about 450 cases of stove burn registered in Punjab (Lahore foundation). in the greed of second marriage to get more dowry the most of their newly wed girls are killed in stove burn. come with infanticide is also a dangerous for women. Most of the government banned the

practices of infanticides of women. but still it is present in many countries. For instance recently Nepal pass the bill to stop this act with girls. in addition to, women considered as a piece of pleasure. men considered its responsibility of women to his all advices in Afghanistan most of the girls forcefully enter in prostitution. For instance. The Sisters Zarnas or sama was found that they were forced for prostitution. which shows the worst condition of women in society.

The women faces discrimination in many field of life. it is necessary for state and society to take steps to may women empowered. Firstly provisional of education makes available for every one. At the

Education becomes free at metric levels give online education in rural areas. which is helpful for girls. secondly adequate health facilities give awareness of women for different diseases through Campaign. TV commercial. it is the responsibility of state to build maternity home in rural areas to safe mother and child. Thirdly. makes women independent. Provide them opportunity of employment. which is beneficial for both state and family. Fourthly, The violence against women is the biggest tragedy of today. Make law and strictly follow these law to stop violence it is also obligatory to educate women to aware with her rights. she is not depends on other for their protection. Strict punishment might be helpful for stop the violence in society.

~~Gender~~ inequality is ^{present} almost every field in education, provision of health facilities, employment, political rights, legal rights, representation in sports and media, which shows the clear discrimination it is due to the patriarchal mindset of society. They considered a man superior because they are bread winner of society. It is important ~~they~~ to understand that no nation makes progress without the support of women. It is important to provide every their equal rights. It is important to ~~make~~ progress of country for the one can stand with developing nation.
