05 Challenges in the way of social-networking in Pakistan

5.1 Limited digital literacy in the country is looming challenge in the way of social networking in the country.

{comparative analysis of Pakistan, India and China}

5.2 Rising Government censorship impedes social media growth in Pakistan

{~~Def.~~ Fire wall, Defamation Act}

5.3 Online radicalization is a bigger challenge to the social networking in the country.

{digital terrorism - ISPR}

06 ways forward to counter the challenges

6.1

Government must work to enhance digital literacy.

6.2

There is dire need to act in accordance with the Article.19 and 19A of the constitution of Pakistan 1973.

6.3

Radicalization could be wiped out with well build narrative (counter) rather than fire wall or other curtailing tools.

07. Conclusion

"When you give everyone a voice and give people power, the system usually ends up in a really good place"

— Mark Zuckerberg.

Pakistan is moving towards digitalization with greater speed. According to Digital 2023: Pakistan

Write the quotation within the paragraph

"Internet penetration stood at 36.7 per cent in 2023.

Pakistan is home to 71.70 million social media users

in January 2023". This high-

lights that a wider range of population in Pakistan uses social networking. The number of users goes upward with each passing day. Kepios analysis indicates that internet users in Pakistan increased by 5.4 percent between 2022-23.

Social media industry grows up fast in Pakistani society. therefore, it sheds multifaced impacts on the society. In positive side, it has increased connectivity. Social media has become voice of the voiceless communities. Further, Social media not only promotes businesses but also legs up social mobilization.

Do not add references in the introductory paragraph

in the country. As each coin has two sides social media also has many negative impacts on society.

It spreads deluge of misinformation. Deleire has rightly observed

"Reliable information is drowned in a deluge of disinformation".

In addition to this, cyber bullying, online harassment and mental health issues are the curses of social media in the society. Despite rapid growth social media faces numerous challenges in the country ranging from limited digital literacy to censorship and online radicalization. Is Pakistani society digitalized? To what pace social media penetrates in the country? How much it impacts the society. In the ambit of digital globalization nearly everyone has know-how about social media. Its influence and scope has conquered the globe in general and Pakistani society in particular. Rising use of social

media sheds positive as well as
negative impacts on the Society.
