	Real development of any country is,	
	inuted associated with the masses	
	inhabiting the country Their happiness	
	and prosperity are apt yardsteks	
	to measure me real development undoubt-	
	edly real development can only be	
	achieved when proper attention is	
	directed towards the betterment of	
	people along with economic growth.	
	Notwithstanding this, there are certain	
	Notwithstanding this, there are certain factors which impede real developm-	
	ent, and thus demand immediate	
	attention. Geal development can be	
	manifested through multifarious factors	
	such as masses having access jand	
	availablity of every exposite ficility. They	
	have improved living standards and	
	wealth is distributed equally across	
	the broad spectrum of society. The	
	country is showing good performance on human development inder (HDI)	
	on human development inter (HDI)	
	and it has high literacy rate. Addition-	
	ally, the civic inflastoucture is also	
	well developed in such countries and	
	descrimination hardly have any footpring	
	here. Also, unemployment rate is reason.	
	ably low in such an environment. Where	
	as, in order to achieve real development	
	along with economic growth requires a	
	country to curb consept practices, ensure	
	equitable distribution of weath and

Also, in order to see how a cou-
now is seally developed it is neces
ssary to see the role of desconnin-
ation in it. It has been found
that those country are showing good
results in terms of seal developm-
ent where descrimination hardly exists
in any form. If country can only
make a consequental progress when its every citizen feels emfidant
its every citizen feels emfidant
and equal in availing oppostunities
possible in it. He one should be
left accessing government opportuni-
ties because of one's gender ethi-
left accessing government opportuni- ties because of one's gender ethi- nicity, race, creed and colour. Thus,
for hear development in country
these should be no descrimination
in it in any form.
finally, low unemployment rate is also one of the indicators
is also one of the indicators
of seal development in any society
The more the low unemplayment
rate, the more the access people
have to Job opportunities. While
real development is concerned with
the progress of masses, in highly
employed society people have good
tiving standards and viable economic
conditions. Hence, a country is directing
its forwards providing more job oppor-
funities is a really developed country
Double A Page No. 4

This essay has discussed the key
manifestation of real development in
the above paragraphs. While in the
following paragraphs it will discuss
the features of economic growth with
the features of economic growth with.
Firstly there are many factors
which impede any country's seal deve
lopment despite its sound economic
growth. One of them is corruption.
Any Country which is infested with
corrupt practices, in such country
dividende of economic growth never
beach to the masser. Corrupt offi-
eight ambezzle most of the funds
directed towards the betterment of
people lives It is thanks to
corruption that such countries inspite
of economic growth hardly make any significant impact on the lives of common people. For example, Ban-
any significant impact on the lives
of common people. For example, Ban-
gladesh has been showing viable econo-
Inic growth for " few years, people still
disladged the Hasin Wajid government.
It is because comption was prevalent
in Banglades B. Hence, despite economic
growth, corruption impedes real development.
Second, when wealth distribution
is not resulated and it is allowed to be
concentrated in few hands, then des-
pite economic growth of a country

Duy	
real development never occurs. Unforcu-	
sale is recont times the whole	
id is operating under capitalism	
where wealth is not regulated. In	
Anise ex though Pakithon was dem-	
Symb's era though Pakistan was dem- onstrating a significant economic	
boost yet due to concentration of	
wealth in year hands its benefits	
didnot brickle down to the people.	
did not prickle yours to be perfect	
This shows real development cannot	
occur always with economic boost if	
wealth distribution is not equitable.	
Hence, concentration of wealth in	
Yew hands hampers benefits of	-
economic growth to pass down to	
grassrool and in horn dwarfs real deve-	
Popment.	
Third, if, despite significant short	
in economic growth, people are den	
uded of getting access to basic	
facilities, seal aevelopment remains	
more a dream than reality in such	
conditation. Unfortunately, in pakistan	
common folk has always made a hue	
and cry in gestationing to access	
to basic amerities. Pakistan's econom	
ic growth has never been sustainable	
it continues to be in boom and he	4
cycle. Honever, in times of sound oran	
mic growth the people of laire	+
strata has never gotten any dividen	1
