

~~Economic and Political Participation~~

~~Moreover~~, Women in Pakistan, faces a lot of health issues including Reproductive and family planning issues. The Escalating rate of Gender-Based Violence have increased in this decade which leads to unequal justice. ~~Who survived or died does not convey any meanings~~

~~Survived or died~~ For instance, the case of Mukhtara Mai and Noor Muqadam can be one of the relevant examples.

Similarly, women in Pakistan lacks access for having equal information and technology, resulting in unequal digital access for gaining information and hindering their economic participation.

All these factors ~~leads to~~ conclusion that, Although Pakistan has ratified many International commitments to ensure gender inclusive approach at all forums, yet, it still lacks commitment on it. Therefore, Pakistan needs to have gender inclusivity at all forums for women in order to achieve sustainable development.
