e. Israeli government block electricity sold to Gaza.

f. Israel detains Palestinians without charges.

g. Israel has done many war crimes in Gaza.

4. Palestine's Struggle: David's fight against Goliath.

a. Palestinians have no national defence industry.

b. Palestinians have no real state and

- regular army
- c. Economic hardships faced by Gaza.
 - d. Palestinians lack political power.
 - e. Palestine's support doesn't match Israel's level of support and influence.

5. David is struggling to reach the same level of strength as Goliath.

- a. Hamas won in the 7 October attack on Israel.
- b. Hamas's concept of military victory is all about long-term political outcomes.
- c. Palestinians are gaining global support, while Israel economic losses.

b. Conclusion.

Goliath was a champion, a monster who had never been beaten, and when this young guy, David came forward, a child who believed in God and did it (Tyson Fury).

Similarly, in Palestine - Israel conflict, Palestinian's like David, have less influence globally than Israel.

The world has lost faith in the Palestinian's ability to fight against Israel but their continuous struggle shows that their faith in Allah is stronger than the Israel's influence.

Israel has caused destruction to Palestinian lives, violated their rights, committed war crimes and blocked essential needs for living.

Israel is considered as Goliath due to its strong influence & support from powerful countries.

It has strong military, stable economy, nuclear weapons, and defence and political power much more better than Palestine where Palestine lacks national defence industry, army, facing economic &

political power and international support challenges. However, the situation seems to be changing. Hamas attack of 7 Oct 2023 was the start of David's winning. Hamas believes that their victory will be of long-term victory. While Israel has ended the peaceful life of Palestine by fully occupying their land. It has violated their rights but Palestinians, who have full trust in Allah, are fighting back.
