

Higher Education in Pakistan: Ills And Remedies

Date: _____

ay: _____

Topic understanding is not correct

① Introduction: Thesis Statement:

Nation expects from the State of Pakistan to provide adequate Education of good quality in order to seek opportunities and employment, within and outside Pakistan. Unfortunately, the aforesaid expectations fall under the ill of higher education system in Pakistan. But, Remedies do exist to turn the tides of these ill.

② Poor higher Education System of Pakistan

67% to primary school, Secondary 41%, Post secondary 15%.

③ The ill of the higher Education System in Pakistan

3.1 Government failing to provide enough Education is an ill in itself

Case in Point: Ministry of federal Education and professional training reports the literacy rate of Pakistan to be 62.3% (2023-2024). ^{GDP} 1.9% to Education.

3.2 Lack of quality Education in comparison to other ~~literate~~ countries. For Example: Finland, Japan, USA.

3.3 The bifurcated public-private system of education has made higher, "quality"- Education too expensive is another ill

Education lifeless.

④ Impact of ills of higher Education on Pakistan, its Society and individuals.

⑤ Remedies to the ills of higher Education System of Pakistan.

S.1 Remedy lies if government contributing more of budget in the education Sector.

S.2 Unified federal-Provincial board should be created as a check for the bifurcated Education System of Pakistan.

S.3 Remedy exists if budget given by the government is correctly used against the ills like creation of Research Labs.

S.4 Changing teaching methodology by training staff and teachers is

Date: _____

Day: _____

S.S

Up-to-date Curriculum is a step towards remedy to give quality education.

(6) Conclusion

Ills and remedies if higher education have been asked
The topic is not about education rather higher education
