

## ESSAY BODY PARAGRAPH.

People have become ~~only~~ dependent on technology.

Argument:

Over reliance on technology for communication among people.

People have been heavily relying on technology for <sup>communication</sup> ~~connecting~~ with people. Technology is a tool which makes a ~~human life~~ <sup>Human's life</sup>

more ~~superior~~ than it was before industrial revolution. Firstly, humans use technology

in the form of emails through which they ~~send~~ <sup>send</sup> their messages within seconds. Secondly, they provide a mode of ~~vi~~ <sup>vi</sup> ~~lence~~ <sup>lence</sup> causing

over reliance. Secondly, instead of having a conversation with people ~~physically~~ <sup>physically</sup>, they

prefer relying on their mobile phones for a virtual conversation with people. In

2022, the value of global video conferencing market reached up to \$70.2 billion. Therefore, people rely on technology to communicate

with others.

Overall quite good attempt
