Q: Write a precis of the following and suggest a suitable title.

TITLE: Nizar Hassan's perspective on Palestine.

PRECIS:

Nizar Hassan was born in 1960 near Nazareth. He translated from anthropology to TV and in 1990 from TV to cinema. His film "Independence" critiques the way that now Israeli captured the homeland of Palestine. As Israel was planning to capture more of Palestinian land, Nizar Hassan sent me his latest film "My grandfather's path". The opposing of Zionist settler colonialists would make you end up like them. The excessive anger towards injustice can lead to becoming similar to the oppressor. Art and culture can help to maintain ideals and prevent from falling into this trap. Nizar Hassan's new documentary has put Palestine in perspective. The film is long, beautifully crafted and should be seen in one go. (127 words)
