Suggest remedial measures to address the cons

CONCLUSION:-

INTRODUCTION:-

Social media has only reached its 25th ^b Birthday recently, but it has changed the fabric of everyday life. It has become a vital part in our lives by transforming the way we communicate and connect. Social media platforms offer a wealth of educational content and supporting networks. It also has the ability to open new avenues for marketing and job opportunities. However, this digital revolution ~~comes~~ ^{has come} with significant amount of challenges. These include privacy concerns, mental health issues, misinformation and social isolation. The rapid spread of fake news and the potential for cyberbullying and

harassment further complicates the social media landscape. As we navigate this complex environment, understanding both the significance and challenges of social media is crucial for maximizing its benefits while mitigating its negative impacts.

CONCLUSION:-

Social media is a double-edged sword that offers both remarkable benefits and significant drawbacks. A famous saying by Rumi: "Excess of everything is bad", implies on the likes of using social media as well. This existing nature of social media requires users to handle its complexities with extreme care. By doing so, users will be able to sniff the fragrance from the flowers more than harming themselves with the thorns attached. The responsibility equally lies on the users consuming social media as well as on the state to govern the data being consumed. At the end of the day, it is a mutual
