

# Growing Urbanization in Pakistan: Causes, impacts and Way Forward.

## Outline:

### 1 Introduction:-

Also highlight causes

Thesis Statement: Growing urbanization in Pakistan has several impacts such as over-crowding in cities, social fragmentation, environmental impacts, political and governance challenges and social inequality. But the effects of these impacts can be reduced by proper urban planning and development, environmental management, and by strengthening governance.

### 2 Decoding the term "Urbanization"

2.1: What is meant by Urbanization.

2.2: Historical background of Urbanization in Pakistan.

### 3 Causes of Urbanization in Pakistan.

3.1: The Quest for Better Facilities:

- (a) Education.
- (b) Healthcare
- (c) Job opportunities

3.2: Insecurity in rural Areas.

- (a) conflicts and security threats in certain regions especially in border areas
- (b) Natural Disasters.

That has no direct link with urbanization

Examples: Migration of a lot of people from South Punjab to various cities of Pakistan after 2010 floods.

Unclear argument
