## 2 Conclusion

"Education is a powerful weapon which use to change the world." (Nelson Mandela)

This above mentioned quoted guides about higher education to change the world. Education is road to national development. It creates a sense of

It renders people more  
Productive and  
responsible

responsibility among the people.

Based on education people not only realize their duties but also know how to achieve their national social and individual rights. <sup>It</sup> Higher Education

is a type of education that is given to Post-secondary institute of learnings.

It is abroad level of education where a man learn how to think about nature. Pakistan faces many

prevailing higher education system in Pakistan has been facing

Such as Many challenges inadequate institution and budget. Gender inequality,

defective examination system.

Poor infrastructure with lack of

11/1/20  
facilities and out-dated curriculum  
is a major cause of higher education.  
Political interference ~~disrupts~~  
higher education <sup>Disrupts</sup> in Pakistan. However,  
some remedies are curable to  
remove the ills in education system  
in Pakistan. Such as providing  
funds for education and improve  
technical education - Furthermore,  
promote professional teachers on  
merits. Higher education system  
promotes research culture in  
rural areas as well. Implement  
uniform education and access to  
skill training. No doubt these ills  
prevailing in education are curable  
by some remedies. Transition is fine

The institute of higher  
education ~~can serve a bridge~~ <sup>Serves as a bridge</sup>  
between the community and  
government. In fact higher education  
is the backbone of society. Infrastructure  
development needs to give high

Priority, with funds allocated for both the buildings as well as funding necessities like labs, classrooms, and libraries. In their desert, the student

~~sit under open sky~~ <sup>the</sup> The students are forced to sit under the shadow

of trees with zero facilities - At the same time poverty stricken parents do not have the resources to send their children to the localities acquiring education - Therefore the poor people in villages are being deprive from higher education due to lack of institution and facilities. People could not get higher education in walkaway

areas.

Walkway areas?? Does not convey any sense
