

Translation 2022

Every Era brings with itself many matters which ~~no one~~ likes it but has to accept it. Sometimes nature tests us by bringing such matters which in front of us which have no relation with us but we have to make it a part of our life and spend our lives with them. Today is also going like that. Every Century brings changes which were different ^{and new} from the previous ones. The natural sciences gives us ^{so many things which made} scientific and economic ~~formed~~ is a waste. Nature gives us fruits and also binds us to properly dump ~~the~~ the peeling and its waste material. However, if it doesn't dispose off ~~prape~~ properly, so the environmental degradation worsens.

Translation 2021

Against the welcoming and obedient attitude before colonist English values that was nurtured by British rulers and adopted by the Indians at that time. The Sir Syed and his son Mahmood, both tried to adopt the attitude which was equal to and same to the Britishers. The 1867 incident ^{of Agra Darbar} was already heard and by the ~~Indians~~ and known to the Indians ^(distanced) the Sir Syed separated ^{himself} from that Darbar because the Britisher gave low rank seats to the Indians as compared to English men. In this Darbar, a medal was awarded to the Sir Syed. Later on, it was given to Meerath Commissioner Williams that he would present it to Sir Syed in ~~the~~ Aligarh Railway Station.

Translation 2020

The education system of every nation of the world matches with its own national character, which shapes and complete the ^{national and} collective goal of nation and nation remains ready to fulfilment of these goals. Therefore, the education system of any country depends on the extensive training program assist in the development of mental capabilities and incorporate it into character building of its individuals.

Education system ~~trained~~ trains the individual in that way that bring changes in the destiny of the nation.
