

Reading Comprehension-2023

- ① Most of the people around the world are striving to fulfill basic needs and are living a simple life. They find happiness in simplicity. ~~However~~, it is wrong to presume that having material wealth leads one to live a happy life. There is no relationship between having material wealth and happiness.

Avoid cutting. Repeat question statement at the start of the answer.

② 'Voluntary Simplicity'

The Author characterizes voluntary simplicity as a movement and philosophy ~~under~~ through which one tries to limit the consumption of goods and services. It is a choice that is made willingly to ~~remove~~ remove all the material and abstract practices which deviate one from the

Incomplete sentence

- ③ The impact that is generated through growing consumerism in modern society is overconsumption. It refers to situation where one cannot ~~balance~~ balance his desires and needs, which eventually disturbs a healthy life style with a never ending desire of getting more.

- ④ In contemporary time, there are certain ~~influence~~ influences which make it difficult for people to change their consumption pattern. The most important one is the advertisement technique. With different advertisements that one gets multiple time

in a day about variety of products
often leads to a situation where the
consumption is largely not needed.

5

Voluntary simplicity has many rewards but few
challenges in its way. For a person who is
living in a world that immensely focuses on
consumerism, it becomes difficult to change
the lifestyle. However, if one adopts to the style of
voluntary simplicity, many changes can be made.
First of all it will benefit the environment. Along with
this, more resources can be preserved, ~~or~~ health
can get better and one can enjoy more.

Punctuation needs improvement.
