Topic:-

Causes and Consequences of Climate Change in Pakistan.

Brainstorm:

Keep practicing on different themes/topics

Outline:

1: Introduction

Write full form

2: Causes of Climate Change in PAK

2.1- Reliance on Hydrocarbons

dependency

2.1.1- Energy Dependence on Fossil Fuels

2.1.2- Imported Hydrocarbon Emissions

Unclear argument

2.1.3- In-efficient Use in Industries

2.1.4- Policy Challenges

2.2- Agricultural Practices

2.2.1- Methane Emission from Livestock

2.2.2- Rice Cultivation

2.2.3- Fertilizer Overuse

2.2.4- Water Intensive Practices

2.3- Deforestation

2.3.1- Urban development

2.3.2- Conversion of Forested Land for Agriculture

2.3.3- Use of Firewood for Energy

2.3.4- Illegal logging

2.4- Urbanization

2.4.1- Loss of Vegetation

2.4.2- Increase in Vehicle

2.4.3- In-efficient waste management

2.4.4- Increased energy demand

2.5- Global contribution.

3- Effects of Climate Change

3.1- Environmental Impacts

3.1.1- Melting of Glaciers

3.1.2- Rise in Sea Level

3.1.3- Flood

3.1.4- Earthquake

3.1.5- Heatwave

3.1.6- Pollution

Make phrases instead of writing single word

3.2- Human Impacts

3.2.1- Food Security Risks

3.2.2- Increased Water Scarcity

3.2.3- Disease Spread

3.2.4- Stress and Depression

3.3- Economic and Social consequences

3.3.1- Economic losses

3.3.2- Loss of lives

3.3.3- Displacement of Populations

Conclusion

Suggest remedial measures as well

Introduction:

Barack Obama says, "We are the first generation to feel the impact of climate change and the last generation that can do something about it". Climate change is neither a new issue nor is it fully settled one. Developed countries are dealing with it successfully. Whereas, underdeveloped/developing countries are still struggling. Unfortunately, Pakistan is one of them. The main causes behind climate change are over reliance on hydrocarbons, Agricultural practices, Deforestation, melting of glaciers, Urbanization and global contribution. The effects of climate change are floods, ~~earthquake~~, pollution, drought, heatwave, rise in sea level and setbacks for economy. These causes are not new in nature but their intensity is increasing in Pakistan. So, serious and honest efforts are needed to solve the issue of climate change. Therefore, the main aim of this essay is to discuss the causes behind climate change along with their consequences.

Reason 1:

The work was physically hard.

b. Each carton weighed 25 pounds and they were coming down non-stop

Reason 2: Pay was bad un-satisfactory

a. Minimum wage of \$3.65 per hour.

Reason 3: Work conditions were bad.

b. Loading dock in near zero degree temperatures.
