Brainstorm.	
climate change in Parcistan	
N N	
Causes	consequences.
· Power Generation	O Hotter temperatures
•	Heat waves etc, Global warming.
() · Transportation	(2) Severe Storms, floods, tsuma
3 Deforestation.	3 Increased droughts, water scarcity
(1) Greenhouse effect of Planet (1) Poverty and displacement	
Earth	
Outlines:	
1. Introduction:	
HOOK	
1.2 General stateme	nts,
1.3 Thesis statement	: Many in Climate change
is a result of human a	Hvitics like power generation,
transportation, deforestation and the natural	
phenomenon called Greenhouse effect. All of this	
combined is having a significant impart son Partistan included, Hotler temperatures, severe	
Pakistan including, Hotter temperatures, severe	
storms floods, Increased	droughts and poverty.
