

Previ 2017

The author says that spending free time and doing nothing is as important as working. Enjoying in nature and having leisure time benefits and improves mental health. Today, the world is in shambles and it is not because of lack of work rather excess of it. Everyone is involved in one thing or another. There is a lack of kindness and steadiness. The hustle culture pushes and forces to stay engaged in some work or pursue a goal ~~re~~ disregarding the importance of free time completely. Majority of the energy is misused and creates excessive pressure to utilize energy in doing something. All the bad in the world is done by people actively
