

Title: Use of intelligence for humanity's betterment.

rewrite this sentence

Precis: Man should figure, how to use IQ for humanity's betterment

and increase affinity among each other. This will increase human's chances of survival. Such a situation

is a challenge for teachers and

schools. Historically this area was

covered by religion but evidently it failed and motivated individuals towards money and power, this

resulted in people believing that there is no god. Powerful men avoid engaging

in social problems and decisions of such

men are based on power not ethics.

~~Similar thinking can lead towards~~

~~a nuclear warfare.~~ Thus, humans should

hope that knowledge and tutoring have

sentence is too long again sentence structure is incorrect

what it takes to change the mentality of

an individual and find a way to inject

empathy, kindness and honesty so that

humans can work together. (120)

main idea is picked but there is issue of coherence and sentence structure 6/20 not satisfactory
