

CLIMATE CHANGE: CAUSES & CONSEQUENCES

Brainstorming

Outline

Introduction

- ⇒ Hook
- ⇒ Connecting sentences
- ⇒ Thesis statement:

Climate change is not only a third world issue but also a global one caused by industries, deforestation, overpopulation, overconsumption, green house gas emissions and powered buildings, and **is** leading towards ~~consequences~~ a myriad of consequences including health issues, psychological issues, floods, droughts, global warming, poverty and threat to all species.

Main Body

⇒ Causes

of climate change (make complete phrase)

- ① Deforestation: for housing, furniture and more.
- ② Overpopulation: increasing numbers and decreasing resources
- ③ Overconsumption: private jets of the wealthy, transportation, electricity, food and more.
- ④ Greenhouse gases: emissions by vehicles, industries, etc.
- ⑤ Industries: IT, animal farming, milk, oil, gas, power, etc.
- ⑥ Powered buildings: constant utilization of resources.

⇒ Consequences

Make proper phrase

- ① Health Issues: respiratory, cardiovascular diseases, cognitive decline, etc.
- ② Floods and droughts: extreme weather conditions juggling between too much and too less.
- ③ Global warming: Increasing temperature of the earth with each passing year.
- ④ Poverty: Extreme weather conditions leading to family and house destructions, ~~and poverty~~.
- ⑤ Threat to species: Animals losing homes due to global warming and climate change.
- ⑥ Psychological issues: Anxiety, depression, hopelessness, suicidal thoughts, "eco stress".

⇒ Reasons for ignoring this issue

- ① Capitalism
- ② Lack of Awareness
- ③ Apathy towards Earth

Irrelevant and unnecessary details

⇒ Solutions for increasing awareness

- ① Climate campaigns
- ② Educate and Advocate

⇒ Concluding Paragraph

Concluding remarks, restating thesis.

"Earth provides enough to satisfy every man's need, but not every man's greed."

Mahatma Gandhi said this quote almost a century ago about the greedy and selfish nature of the mankind which is the very reason for the destruction and devastation of this planet. But the regretful part is that this saying applies to the world even today. It is the failure of this mankind that this saying has not been proven wrong after all the years that have gone by, rather the world is subjected to one terror after another every year due to the very greed Gandhi warned about. And, one of these terrors is climate change. At first ^{it was} thought to be a third world issue; climate change has ^{now} become a global phenomenon affecting every part of the planet. This essay highlights the causes i.e., deforestation, over population, over consumption, green house gas emissions and powered buildings, of climate change and ~~their~~ its long term effects/ consequences including health issues, psychological

Date. / /

issues, floods, droughts, global warming, poverty
and or threat to all animal species. Moreover,
this essay will briefly explain why this issue is
being ignored by the majority and ~~what~~ how
this ignorance can be addressed.
