

Brain Drain: Causes and Consequences

Outline:

1) Introduction

i) Hook

ii) Background Information

iii) Thesis Statement: Many factors contribute collectively to make the people flee out of their home country. Unemployment, political turmoil, poor quality of life and favourable professional opportunities abroad are the reasons behind it which impacts that country in the form of loss of valuable individuals, loss of tax revenue, family disruption and identity crisis.

WRITE SHORT SENTENCES PLEASE

2) Causes of Brain Drain

i) Ratio of Unemployment

- Influx of Graduates

- Economic blow for the country
- Lower circulation of the money

iii) Family Disruption

- Economic challenges
- Emotional challenges
- Deprivation of social life

iv) Identity Crisis

- Disconnection from the home country
- Cultural loss
- Adaptation into a new life

v) Conclusion

The Essay

A famous statement of the Prime Minister of New Zealand, Rob Muldoon, in the 1980s comments about the mass exodus of New Zealanders leaving the country to work in Australia was, "New Zealanders who leave for Australia raise the I^G of both countries." Although, the statement is a humour in nature, yet it is very thought provoking for the third world countries which are already in dire need of higher I^G. Unfortunately, Pakistan witnessed an increasing exodus of its talented citizens in the recent years. The factors contributing to this issue are unemployment, political turmoil, poor quality of life and better professional opportunities abroad. Resultantly, these

factors, collectively, impact the country in the form of loss of valuable individuals, loss of tax revenue, family disruption and identity crisis. Unless these issues are addressed properly, Pakistan can neither become a prosperous nor respectable country at global level.

goodvery good effort

language is fine
